PIEVE VECCHIA BIANCO VERONESE IGT

SOIL TYPE:

Sandy and clayey soil.

PRUNING SYSTEM:

Short Veronese Pergola.

GRAPE VARIETIES:

Garganega 100%

YIELD:

10 tonnes / hectare.

HARVEST:

We harvest the grapes by hand in three different sessions. The first passage in the vineyards to pick fresh grapes ensures we keep some freshness in the wines. The second harvest takes place when the grapes are perfectly matured and the third harvest is left until the sugar and flavours are concentrated in the grapes.

WINE-MAKING TECHNIQUE:

Fermentation begins in inox tanks. The wine is then transferred to tonneaux for about 12-15 months where it lays on its own yeasts. The wine is then bottled and left to fine for a further 6 months.
